Food safety solution

TH2 Portable & Standalone Labelling System

For use straight out of the box at just £795.00(excl. VAT)

Portable & Stand alone Printer

- Carry handle for easy transportation, for use in any location, no PC connection required

User friendly keypad design

- Keypad setup as per a mobile phone

Simple operation

- Professional labels, no ink or ribbons required

All requirements in one box

- Most common labels & applications

The **TH2** out of the box solution supports date, time, ingredients, product code, description, barcode, price and more, depending on which formats are used.

This application has been specifically designed to integrate into all types of food preparation areas, quick service outlets and restaurants. To assist in meeting food safety regulations, including guidelines for allergens.

No additional programming or setup charges apply, the **TH2** can be used straight from the box for 8 of the 10 formats available, 2 additional formats allow your business the flexibility to include and update your own product details and allergen information.*

Free of charge technical support is included via telephone or email should further guidance be required.

Every out of the box solution includes a 1 year warranty on both hardware and labels.

Please see reverse for full pack details.

*Note: to include individual product and allergen details, connection to a PC will be required. Standard database upload is free of charge. Charges may apply for alterations or bespoke designs. Please speak to our sales representative for further details.
